SANG LEE

"I want to make billiards beautiful..."

Introducing the all new Sang Lee cues. Sang Lee's play style and demeanor are characteristics of his game. He would teach others to approach the game by treating and respecting every stroke as "an opportunity to create a masterpiece". Each of these cues feature bold colored splices and Sang Lee's signature. It is a reflection of the style and opportunities you can incorporate to help create your own masterpiece in your game.

The Ultimate in Billiards Technology and Performance.

More accuracy, more spin, more consistency, more comfort, and more longevity, Predator REVO shafts set a new standard for performance.

Made of carbon fiber composite, REVO 12.4mm shafts are the most accurate billiards shaft in the world at both low and high speeds, featuring the smoothest finish, the most spin, and uncompromising durability and strength.
